## PROJECTS

---

### **Maple Online Bus Ticket Reservation System – PHP, MySQL, DSDM Atern**

Built a responsive ticket reservation system with role-based access (Customer, multi-level Admin: Manager, Scheduler, Staff). Enabled booking, payment, schedule viewing, and feedback. Admin managed schedules, bookings, and customer feedback. Followed DSDM Atern methodology for project planning and delivery.

### **FindIt Lost & Found System – Node.js, Express.js, MongoDB, EJS**

Developed CRUD system for lost/found items with image upload support. Implemented search, filter, and pagination functionalities. Designed role-based user access (Admin, User).

### **Portfolio Website – HTML, CSS, JavaScript**

Designed responsive personal portfolio to showcase projects. Optimized for performance and mobile devices.
